## Sale of Documents

*For documents not priced in this Catalogue, it is better to apply to the Bureau issuing them than to the Superintendent of Documents.*

Section 61 of the act providing for the public printing and binding and the distribution of public documents, approved January 12, 1895, provides as follows:

"The Superintendent of Documents is hereby authorized to sell at cost any public document in his charge, the distribution of which is not herein specifically directed, said cost to be estimated by the Public Printer and based upon printing from stereotyped plates; but only one copy of any document shall be sold to the same person, excepting libraries or schools by which additional copies are desired for separate departments thereof, and Members of Congress; and whenever any officer of the Government having in his charge documents published for sale shall desire to be relieved of the same, he is hereby authorized to turn them over to the Superintendent of Documents, who shall receive and sell them under the provisions of this section."

In accordance with the foregoing provisions, prices are fixed on the documents named in the Catalogue. Except as otherwise stated in the body of the Catalogue, these computed prices call for paper or cloth covers, and a corresponding increase will be made for books bound in leather or half leather.

Remittances should be made by postal money order. Individual checks or postage stamps can not be received in payment for books.

All public documents, from whatever Department or Bureau they may be bought or procured, will be forwarded to the purchaser free of postage.
